

ManuAI Azure Deployment Environment Summary

Azure Environment

- Subscription: 7f232a3b-bb69-486b-a37d-afc45049b33f
- Resource Group: Manu-AI-Solution-RG
- Region: East US
- Container Apps Environment: managedEnvironment-ManuAISolutionR-97c6

ACR

- Registry: manuaiacontainerregistry
- Login Server: manuaiacontainerregistry.azurecr.io
- Web Image: manuaiacontainerregistry.azurecr.io/manuai-web:latest
- Digest:
sha256:09d9ef40c741740b36f94522d8c7c98516458b3dab92f836e18059380ab129ab

PostgreSQL

- Server: manu-ai-postgressql
- Database: manuai_db

Redis

- Name: Manu-AI-Solution-Redis
- Hostname: Manu-AI-Solution-Redis.eastus.redis.azure.net

Container Apps

- manuai-env (Frontend)
- manuai-api-app
- manuai-pdm-inference-app
- manuai-yield-optimizer-app
- manuai-energy-optimizer-app
- manuai-quality-vision-app
- manuai-supply-intelligence-app
- manuai-twin-sync-app
- manuai-safety-monitor-app

Current Frontend Status

- FQDN: manuai-env.victoriousground-e16cd209.eastus.azurecontainerapps.io
- Status: Running
- Current Revision: manuai-env--web03
- HealthState: Unhealthy
- Provisioning Error: Container crashing: manuai-env
- API_UPSTREAM=http://manuai-api-app:4000

Root Cause Identified

- Dockerfile.web runs npm run build from repository root.
- Root package.json has no build script.
- apps/web/package.json contains build: vite build.
- ACR build fails with: Missing script: build.
- Dockerfile.web must be corrected to build using apps/web package.json.
